June 25, 2009

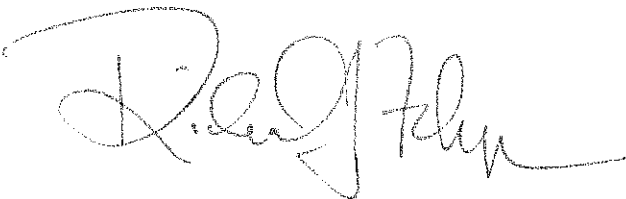

To the Bay County Commissioners:

I strongly recommend that you consider rehiring Dr. Jason Newsome.

He is a hard working, dedicated health practitioner whose message about eating health and regular exercise is sorely needed. His method of delivery has not always been seen in the best light and Dr. Newsome can be as blunt as a sledgehammer, but his message is spot on. Dr. Newsome is very passionate about his cause – to encourage us to eat better and take care of our health. I think he can, with positive encouragement, temper his methods to reach a broader and more responsive audience.

Bay County would be poorer with out him reminding us to take better care of ourselves.

Sincerely,

Richard J. Filippi
