Governor Crist:

My first encounter with Dr. Jason Newsom was when he was the guest speaker at the Panama City Rotary Club. I was very impressed that someone of his ability and ambition would choose to be a Public Health Director in Bay County.

As I watched his campaign, he emphasized the need to educate the public about improving their eating habits. I totally agree with his position, however, I think he may have become a little intense about the donut issue.

I hope that we can establish a job description that will detail the public statements he can make and allow Dr. Newsom to return to his position. He is a civic minded , qualified doctor who needs to be our Public Heath Director.

Thank your for your consideration.

Rick Koehnemann

President
